“ Kisten and Robert I was saddened to hear of your Dad's passing. I worked with your Dad and we spent many years laughing and talking as we planted samples in Microbiology and had coffee together. Your father was tasked with teaching me the ropes as a student in the lab and on my first day I jammed my finger in a machine. Once he stopped laughing he helped me get it out. He had great delight in sharing that for years to come. He was so proud of you two and his grandchildren. He will be missed.

“ I was very sad to hear of Earls passing. I worked with Earl at Westman Lab for several years and he was also a very enthusiastic member of our karate club. I will remember and miss his sense of humor and his kindness. Even when he was very ill we shared more than a few laughs and fond memories. My condolences on your loss.

“ I'm so sorry to hear of Earl's passing. We worked together at Westman Lab for 25 years in the Microbiology lab. I'll remember Earl as the kind-hearted, chatty friend with a sense of humour, and as a man who loved his family. He'll be missed. Thinking of you with sincere sympathy,

“ I appreciated Earl's humour with his amusing quips and corny jokes. He was kind hearted lending a hand whenever asked - he even pushed my car out of the snow packed lot at work! I will miss running into him around town. May your memories keep him close in your heart.

“ My sincere condolences to Earl’s family and friends. I am saddened to hear of his passing. I worked with Earl at Westman Lab for a few years. He was always so cheerful and helpful. Despite his health troubles these last years, he was always cheerful and said hello and would have a quick chat. I am sure he will be missed by many. May your memories and loved ones bring you comfort during this difficult time.

“ To the Gray family,
My deepest condolences. I worked with Earl in the Micro Department for 30 years. Earl never ran out of stories to tell and always had a very cheerful nature.
